

Signs of spring

Can you find these signs of spring? Look around the woodland and the yard. Touch and smell, but please don't pick! What will happen to the things you find during the following season? You could colour the pictures later.

Look in the trees for buds or new leaves:

Beech buds
(long and pointed)

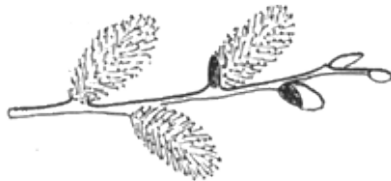

Young pine leaves

Young beech leaves

(Feel them)

Look for catkins (tree flowers):

Pussy willow

(You may find them on the ground)

Birch:

Catkins

Young Leaves

Look for wood that was cut during the winter:

Logpiles

What will they be used for?

Bundles of peasticks

What tree are they made from?
